The Quality of our Service

Wherever we are, we adopt the highest standards of professional service to recruit the best candidates who will best contribute to our client's progress in their national and international markets.

Search & Selection

Master Mind Consultants offers a team of experienced headhunters and recruiters. Our strategy is to Provide professionalism of highest standard to our clients in advising and acting for them, in identifying, evaluating and successfully recruiting the best possible candidates for key-management and specialist positions. We are dedicated to introducing outstanding performers who can truly add value to client companies. Our goal is to make the search process as efficient and effective as possible. We assist our clients in all stages of the search to ensure a successful fit - defining the position specifications, screening candidates, conducting reference checks and negotiating the final agreement.

Our Search Process

Before starting an assignment, we invest considerable time in getting to know the client's company, its corporate culture, staff, products, and business strategy. The search begins with a client consultation to determine job specifications, desired personal Characteristics, and special cultural, organizational needs and requirements. The most promising candidates are screened and interviewed. After carefully analyzing the strengths and weaknesses of each candidate and confirming his or her curriculum. We work together with the client to arrange interviews with top-candidates.
